About the Workshop

Total Station is an advanced instrument nowadays important tool in the field of surveying. Keeping this in mind we want to make students aware about this multitasking instrument, so that students can be aware of modern technologies. The workshop emphasis on the advance surveying works, with modern instruments. The workshop mainly focuses on the real time problem. The workshop is designed for Civil Engineering and Architecture graduates.

What is Total Station?

A total station is an electronic/optical instrument used in modern surveying and building construction that uses electronic transit theodolite in conjunction with electronic distance meter (EDM).It is also integrated with microprocessor, electronic data collector and storage system.

About Department

Civil Engineering department offers Diploma, Undergraduate, Postgraduate and Doctoral degree in Civil Engineering. The Department is equipped with all major Civil Engineering laboratories like Geoinformatics, Concrete Technology, Transportation Engineering, Environmental Engineering, Structural Analysis Lab to name a few.

About University

Dr. K N Modi University, a state government enacted, UGC approved private university, situated on a sprawling 45 acres campus with sylvan surrounding is situated at Newai in the Tonk district of Rajasthan. Managed under the Dr. K N Modi Foundation with its core values as “Knowledge” & “Character”, it aims to become a landmark center of higher education.
